

OPTIMAL CHEMISTRY

To know you at a glimpse, at first sight, envisioning all the things which afford you optimal pleasure. To theorize beyond fantasy, arouse profound truth, this deep connection amidst all that you are.

So to contemplate, revise said potentials, that kiss upon your person unleashes pure indulgence within your core. Of the awareness, the inherent understanding, that for such encounters the very notion exists.

To extend to you affection, unbridled sensationalism, lingering tremors alone denotes the conclusion of joy. Replacing my initial thoughts with most intimate symbolism, perhaps as if words are seldom sought.

Redefine fundamentals, random moments, quiet corner compels eroticism beyond compare. Beyond before, thus each embrace surpasses the previous, a natural aphrodisiac, prophetically instinctual.

Mark Anthony
